INSTRUCTIONS FOR STUDENTS:

This graphic organizer will help you keep track of information about water for all of

- Search for important facts about water.
 - x First, describe, or write about, how much water is available for humans to use.
 - x How many people in the world do not have safe drinking water.
 - x Then, describe the problems, or challenges, that we have to make sure there is safe drinking water.
 - x Finally, write down the so what what we must do to make sure we have safe drinking water?

Availability of water	Access to water	Water challenges	So what?
Only _____ of all water on earth is available for use.	_____ of the world's people do not have enough _____ .	There may be less safe water because of _____ and _____.	[Write what we must do to have safe drinking water]

Word	Definition	Example
limited	not endless	There is limited water for people to drink
military	armed forces of a country	Yet WHO says meeting its MDG for safe water would cost less than five days' worth of global military spending.
occur	take place; happen	For many areas , rainfall will occur in a shorter period of time.
period	portion of time	For many areas , rainfall will occur in a shorter period of time.
political	having to do with government or public affairs
